00000000000 WORLD'S PACING RECORD.

INDIANAPOLIS, Ind., Sept. 18 .- The world's record was broken by Star Pointer at the state fair grounds' track this afternoon, when he paced the mile against Joe Patchen in 2:01, the race being the closing heat between the two world's wonders, that was paced over n muddy track yesterday.

minute track was in an ideal condition, and the day was beautiful, but only 2000 were on hand to cheer the wonders. As they left the wire Patcher forged ahead a haif length, and kept the lead until the first quarter was made, in 294 seconds. Patchen continued to hold the front until the eighth was made and passed, making the half mile in one minute flat. minute flat.

was then that Star Pointer came It was then that Star Pointer came up and gradually began to crawl away, and before the third quarter was reached he was two lengths in advance of Patchen, and it was clear that the race was won. The third quarter was reached in 1:30 flat. Pointer quickened his pace by a word from his driver, and gaining a length on the home stretch, passed under the wire three lengths ahead, the fastest time every made in a race.

### THE MATCH RACE.

The match race which is to start at the ball park to-night, for a series of three nights, of twenty-five miles each evening, is attracting great interest. Matthews is a clever and promising young rider. He has come to town to stay until his fate is decided-either the stay until his fate is deelded—either the winner of the much coveted purse of \$300, or the defeated champion, and by the little English girl, May Allen, otherwise known as the feminine "Jimmy Michaels." Matthews was training on the track yesterday morning just as the little girl expected, so she hurried to the track, donned her green sweater and jumped on her racking machine and they both rode like demons, testing each other's sprinting and pacing abilities for about twenty minutes, when they dismounted, Miss Allen remarking that she was satisfied if he could go no daster than that, she thought that the purse would just fit her up with a new winter costume at his expense.

But Mr. Matthews is of the same opinion although he says Miss Allen resembles a pleec of machinery and never seems to tire, and admits that she will keep him hustling more than many of his male competitors have. There is now a great problem to solve, namely, which will be the lucky one. Up to the present time, Miss Allen has been heavily backed by her admirers, so some very fast riding must surely result from this race, which will be bitterly fought by both and it is safe to vay that some records will be broken. It will be a race worth going to see. Below are some of Mr. Matthew's rewinner of the much coveted purse of

### FOOT BALL

That interest in football is on the increase in Wheeling is shown by the many inquiries made concerning the game, and there is a strong disposition among those athletically inclined, to figure on the gridiron this season. For instance, at a well known sporting goods en demands for the football guide book for 1897, and last year's supply is ex-hausted. pr

The new suits for the Tigers, ordered through Jason C. Stamp, have not yet arrived. They are to be very attractive. The Tigers will also purchase some headsear, of the latest design; in fact, the headgear is an innovation in this part of the country.

The Riichie football team of the Eighth ward, which was about the strongest junior team in the city, will reorganise soon. While it is doubtful if the Y. M. C. A. will reorganise, it is more certain the association will have a junior team. Professor State, the physical director, intends getting up a junior eleven, and has good material to select from.

Another aggregation that expects to figure around the top is the ideats. This

crackeriack football team if they felt so disposed. They made an excellent show-ing at basket ball at their field day on the fair grounds, and as basket ball and for fair grounds, and as obsect on and football have so many points in common, the rest would be easy. The Turners don't do things by halves, and if they go into football the rest of them in the Ohlo valley will have to look to their laurels.

British Columns Advancing on Rebels. Beverses at Camp Anayata.

BOMBAY, Sept. 19.-Advices from the front show that the various columns are advancing against the Mahmoukis from Pakiabora and Shabkadr. As yet they have met with no serious opposition; but the difficulties of transportation in a mountainous and almost pathless country are immense. Another formidable obstacle in the way of rapid movement is the lack of water.

not joined in the advance, Yesterday it left camp at Anayata with sixteen companies of infaniry and four guns, is order to re-attack the enemy at the village at Damodaga. The enemy made a desperate resistance but were driven out into the hills.

The British demolished their towers and captured four hundred mule loads of supplies. As soon as the troops began to retire from the village the enemy re-appeared in force. The retirement, however, was effected with great precision, the native troops behaving splendidly. Two Sikhs were killed and six wounded.

It is now known that the enemy's loss during the fight on Thursday last between the Momunds and the second brigade of General Sir Bindon Blood in the valley north of Anayat was very heavy. The tribes engaged did not press the brigade during the retirement, but fresh tribosmen appeared. Captain Ryder's company of Sikhs virtually owed their lives to an Afridi sergeant of the The tribes engaged did not press the brigade during the retirement, but fresh tribesmen appeared. Captain Ryder's company of Sikhs virtually owed their lives to an Afridi sergeant of the guides corps, who, when the Sikhs had exhausted their ammunition and were desperately cutting their way through the enemy, dashed up the hill under a heavy fire with a supply of cartridges. He arrived just in the nick of time, as the swordsmen of the enemy were already among the Sikhs, who were absolutely unable after the heavy climb and the hard fighting, to continue a successful struggle.

Lieutenant Watson was thrice wounded while gallantly leading a handful of buffs, who routed a large body of the enemy that was trying to storm the village in which General Jeffreys, with guns, had taken up a position after missing his main body in the gloom Thursday night.

with disease. There are times when the system is flying along the track of disease at such a frightful pace that to ordinary methods will prevent disaster. There are plenty of medicines which act merely as brakes to "slow up" the disease and put off disaster for a little while; but that isn't enough. What is needed is a medicine that will instantly reverse the entire wasting, degenerating process.

When people are losing flesh and strength and vitality, with the life oozing out of them day after day, they need Dr. Pierce's Golden Medical Discovery, which acts directly upon the vital forces, completely transforms the entire nutritive organism and totally reverses the wasting, debilitating process which is ut the root of all diseases.

It enables the digestive and blood-making organs to supply the circulation with an abundance of pure, healthy, red blood. It stops the wasting of tissue, builds up solid muscular fleels and healthy nerve-force.

THE SEAL QUESTION.

foreign office and summarized in the London Times further than to say that it shows the object sought by the government of the United States for the past three years has been attained by the agreement of Great Britain to participate in the conference to be held in October.

The British government has seen fit to limit its part in the conference to an ascertainment of the facts in dispute as to seal life. It was precisely this result which was contemplated by Secretaries Gresham and Olney when they proposed the creation of a commission of scientists to ascertain whether under the operation of the existing regulations the seals were or were not on the road to extermination. If such a commission should report in favor of the contention of the United States, this government did not doubt that Great Britain would consent to such modification of the regulations as would save the seals from extermination. The continued refusal of the British government to consent to such a commission and conference led to the transmission to Ambassador Hay of Secretary Sherman's note of May 19, which was followed by Lord Sallsbury's reply agreeing to the conference.

Surprise is expressed at the state department that the London Times should publish only the concluding paragraph of Secretary Sherman's note, and devote four columns to a communication from the colonial office which is referred to us as Mr. Chamberlain's answer to Secretary Sherman, a paper which has not been communicated to the state department, and therefore, to which an official reply cannot be made.
